

## Letter from Solome Kabayinala January 2018

Dear Sir or Madam,

I salute you my dear sponsors. It has been a great honor and privilege to write to you though I don't know you neither do you know me. I am deeply humbled to thank you for all the good things you have done for me.

I would have been at home sitting and moving around the street, but you managed to provide everything for my education. I truly thank you for helping me through my education which has been very good and I managed to succeed and now am in Senior Four and I am going to sit exams for it this year. My health and fitness is all fine.

When I was still young my mother left me all of a sudden. I grew up with my father and grandmother though we didn't have any money to educate us. But thank God you came in to help us. Right now I stay with my grandmother and father but the situation at home is not good at all because my father's legs are painning him and there are many other people also living with our grandmother and we do not fit in there so my aunt took me at her place, but even there the situation is not good because she only gets 4,000 shillings a week which has to get us something to eat and even they also demand her money for rent, but she is just looking for some money but she doesn't have.

But on the positive side of my life, I get school requirements from Sr. Janet. I promise you I am going to struggle hard so that I can succeed in my Senior Four so that I make you happy.

I would have paid you but I have nothing to pay you for the great love, care, responsibility and effort you have showed me so that I can go to school but the only thing that I can pay you with is learning and performing very well in class.

But you know here learning is one of the greatest achievements I have ever attained in my life and it is simply the ability of an individual to influence other people to willingly work to achieve the set goals and objectives of an institution.

I had even forgotten to inform you about the school that I go to because I am so happy that I am writing to you but I go to Baptist High School. I joined this school since Senior One and I was elected as a class captain. Later on, I became the assistant choir leader, and right now am the assistant chairperson and along the way, I attained other ranks in the different clubs of the school.

When I finish Senior Four, I would like to go for nursing so that I can help people who are in my situation and I believe that I will do something because I do not put my belief at stake. I know that true success is the progressive, continuous effort to attaining my goals and realization of my vision.

Happy New Year, and let me hope that my letter will be put under your consideration.
